Bear Bill:

This is just to let you know that since I
wrote to you on a becamper concerning one sug-

in the bailivick of the State Department, I immediately brought it to the attention of the appropriate people there. They were quite interested and discussed it with Bob Mirphy just before his departure with the President. It was decided not to have this item brought up by the President because the policy had been established that the President was not taking, sending or implying any slifts to anyone on this trip. However, the interested State officials are pursuing this proposal further with the view to taking action at an appropriate future date.

gestion you went he, the following has tuenspired.

With every must wish for the coming boliday possess.
